

REMARKS

The Examiner has rejected Claims 1 to 10 but has kindly indicated the allowability of Claims 11 to 25. Claims 1 to 10 have been amended so that the features thereof are combined with the features of Claim 11 so that these claims are now in good order for allowance.

This amendment is made without acknowledging that the Examiner's position is correct and without prejudice to original Claims 1 to 10 and the right is reserved to pursue the same or similar claims in a divisional application.

More specifically Claim 1 has been amended to add verbatim the wording of Claim 11 so that the features of both claims are combined.

More specifically Claim 8 has also been amended to add verbatim the wording of Claim 11 so that the features of both claims are combined.

Claim 11 has been cancelled as it is now redundant.

Claim 22 has been made independent by adding verbatim the wording of claim 1 so that the features of both claims are combined.

It is submitted therefore that independent Claims 1, 8 and 22 are now directed to features indicated by the Examiner as allowable and thus are in good order for allowance.

12

The dependent claims have been amended to correct the dependencies accordingly.

Respectfully submitted
